

Lot 103

Saddleback Ridge

Lot 103 profoundly rises from the front of the site to the back. It will need a sloped driveway cut to the top of the lot for a single or two story home that will sit on pad, but the views will be worth it. It could also have a basement garage and space with upper living quarters that are cut into the hill side. This lot would be great for a variety of home types. Check with your builder or designer.

Lot 103 is approximately 13,474 SF or .309 Acres.

Its address is 3016 W, Rock Ridge Road, Cedar City, Utah 84720
